3. Investors' Forum in Riga: Renewable Energies

GLC Glücksburg Consulting AG organises event from October 11 to 14, 2007

Hamburg/Riga, September 05, 2007. The German consulting group GLC Glücksburg Consulting AG organises the 3. German-Baltic Investors' Forum from October 11 to 14, 2007 in Riga. After the successful first forum in Riga in 2004 which focused on "real estate" this year's event presents some of the international market leaders in biogas, biofuel/bioethanol, windenergy and chp-plants and focuses on "renewable energies". DnB NORD Banka is again official sponsor of the investors' forum.

"We are proud to organise the investors' forum for the second time in Riga now", explains Martin Weigel, chairman of the management board of GLC Glücksburg Consulting AG, Hamburg and member of the advisory board of Baltic Holding Company, Liepaja. "This time we have been able to win the decision-takers of the leading companies of the renewable energy market in Germany and the Baltic States as participants and speakers." Among the speakers and participants are Martin Kruus, CEO of 4Energia, Tallinn, Girts Fisers, CEO of BIOVENTA, Ventspils, Jean Sacreste, CEO of Dalkia/Veolia, Vilnius, Markus Meyr, head of marketing and investor relations of Schmack Biogas, Germany and Dr. Carsten Corino, Head of Corporate development of REpower Systems AG, Hamburg.

The forum addresses to energy suppliers, project developers, plant builders, input and raw material suppliers, investors, banks and financing institutions as well as municipalities and other public authorities in charge of energy and environmental questions. The

aim of the forum is to present technology leaders and their projects, to show best practice examples of the renewable energy industry, to create new contacts and to inform foreign investors about financing and investment opportunities in the new energy sector.

“DnB NORD Banka has been partner and sponsor of the German-Baltic investors’ forum since 2004”, says Andris Ozolins, chairman of the management board of DnB NORD Banka. “We have seen how successful the concept of the event is to get people connected and to kick off new business projects. The renewable energy sector is a very important future mega-market and DnB NORD Banka has excellent experience in financing new energy projects in the Baltic States and abroad. That is the reason why we support this 3. German-Baltic Investors’ Forum in Riga again”, Andris Ozolins states.

The full programme of the renewable energy forum as well as online booking can be found at www.glc-group.com/investors-forum. Booking can be made until October 01, 2007. The forum starts with the official gala opening in Blackheads’ House on October 11, the conference will be organised in Hotel Bergs on October 12. On October 13 an excursion to one of the biggest biodiesel plants in Latvia, BIOVENTA in Ventspils is planned. Each evening special elegant dinner and cultural programmes are organised for the participants.

Further partners of the forum are Stadtwerke Flensburg, the German energy supplier who is investing in joint venture projects in Latvia and HusumWind, the European leading wind energy fair as well as the Riga consulting company SIA Konsorts.
